

# Solfa Power Limited

## Company Profile

**Solfa Power Limited**  
...the future of energy

# Our Vision

To become a leading global clean energy company providing a range of products and services that solve an array of energy problems, reduce carbon emissions and promote economic development.

# Our Mission

To champion the energy transition by providing innovative and affordable energy solutions through a motivated team to our customers, whilst maintaining the highest standard of quality, excellent customer service and efficient execution/delivery of our products and services.

# Our Services

**At Solfa Power, providing clean and affordable energy solutions is not just a business for us; we want to impact our world by ensuring our clean energy solutions are accessible and affordable to help our customers live productive, healthy, and convenient lives**

# 1. Energy Audit

**We work with our customers to save money by conducting in-depth energy audits.**

**No matter the size of your organization or home, our efficiency audits gives you a clear overview of your current energy usage and helps you identify areas of energy waste.**

**With our audit, we can make recommendations that will help you reduce your energy cost and carbon footprint.**

## 2. Procurement Service

**With the rising number of solar dealers in the market and the alarming bad experiences of many customers with fake products, we are poised to make a difference!**

*At Solfa Power, it's not just about buying solar components; it's about ensuring the right quality with cost-effectiveness*

**We leverage on our experience in the solar market and partnership with trusted global and local suppliers to ensure that every solar component we buy is built with the best materials, delivered on time, and optimized for performance.**

# 3. Installation Service

Our team of professionals provide turnkey solar system installations of:

- ❖ Solar Home Systems (SHS)
- ❖ Stand-alone solar systems (SAS)
- ❖ Solar street lights
- ❖ Solar security lights

We provide a replacement guarantee on any installation default and a 1-year guarantee on components used.

# 4. Maintenance service

At Solfa Power, we provide top-notch maintenance services for solar installations such as refilling of tubular batteries, cleaning of panels, as well as decommissioning.

Our professionals are highly trained and skilled to identify problems with installations and make relevant repairs and recommendations

We give our clients 30 days of free maintenance and consultation as part of our first-rate after-sale services

Don't Let Dirt or Dust Steal **Your Sunshine**

Before After

**Solfa Power's** cleaning services maximize your energy output and savings.

# 5. Subscription Service

This service solves the challenge of the huge initial cost of solar system as the customer pays a weekly/monthly fee for an agreed period before owning the system.

We have various packages here:

- ❖ Pay-as-you go package (for Salary earners and SMEs)
- ❖ Energy-as-a-service (for bigger organizations like hospitals)
- ❖ We also partner with financial organizations that afford our customers a flexible payment plan.

## 6. Solar Freezing service

**Our solar freezing service is not just a business opportunity but also a way to make a meaningful impact on healthcare, food security, and economic development in Africa.**

**This service helps cold-rooms, health facilities, restaurants or businesses power just their cold-chain infrastructure while they pay weekly for the service. It helps these businesses maximize profit and cut down their carbon footprint as their dependence on fossil fuel is significantly reduced.**

# Our Products

**Solar Home Systems:  
1kVA to 30kVA and  
above**

**Stand Alone Solar  
Systems: 100 Watt to  
1,500 Watt**

**Solar street light and  
Energy-saving  
appliances**

Solfa Power  
...the future of energy

# Some Past Projects

**SOLAR INSTALLATION FOR A  
NETWORK MAST**

**SOLAR STREET LIGHT  
SOLUTION**

**10KVA INSTALLATION AT  
WAKATI ITUSILE PRAYER  
CAMP**

# Customer's Feedback

“I want to thank you for the inverter you gave us. **It is safe.** We don't need to buy petrol; **we do not struggle with the noise of generator again.**  
Thank you, Solfa Power”  
-Miss Okeade

Using the solar home system has **helped me save money,** I don't buy fuel as I use the solar home system to work at my shop.  
**Thank you, Solfa Power”**  
-Mr. Tayo

I got a Solfa Power solar system in February 2023 and I can say it was the **best investment** I made last year. I can't imagine how much I would have spent on fuel! **I have literally abandoned my generator set!** Kudos to Solfa Power...you guys are the best!  
-Mr. Olajide

# The Core Team

**Chinenye Ajayi**
